A CREDITABLE PERFORMANCE.

All credit to the workingmen of London For three weeks they have lain idle, with no ad in their mouths, but with the power of spine and riot in their hands, and yet have ne nothing to disturb the city's peace or seriously infringe upon the reign of law and order. The honest workingman is the same the world over.

All credit to John Bunns, who has guided them in this sensible course. All credit to the ship owners, who have interfered to help and the strike.

It is probable that, barring untoward acci dents, the trouble will be over within two days. London-yes, all England-will step back in safety from the brink of a frightful abyas, and labor will have another feather in

There is an immense amount of level-head edness and good sense about the Englishspeaking workman, no matter where you end him.

IT SOUNDS VERY WELL.

Judge Gilbersleeve's talk yesterday to PLACE case was well worded :

Let the axe fall where it may. We have bu one code of laws; they recognize neither color sationality nor rank. Remember your oaths You shall present no person from envy, hatred or malice, nor shall you leave any one unprented from fear, favor, affection or reward or the hope thereof.

If that exhortation be followed, FLACE can hardly escape prison. No more can his henchmen. But Judge GILDERSLEEVE forgot something. It would have been no less pointed, no less beneficial, and probably as the town. It measures sixteen feet in cir was no less needful, to remind the District-Attorney of his oath than it was to shake up the jury concerning theirs.

It isn't the jury, altogether, that is subject to the potent influence of pulls.

THE TWO MAYORS DEBATE IT.

Our Mayor and Chicago's Mayor had it out restorday. The man named CREGIER, from the wild West, called upon Mayor GRANT and demanded good and sufficient reasons why Chicago shouldn't have the big show in 1802. He got them. HUGH GRANT is pretty well posted on this World's Fair project, and, like every other New Yorker, intends and expects the Exhibition to come here. He told Mayor CREOTER SO. And it will.

HIS VACATION IS OVER.

Probably no home-coming New Yorker has found more opportunity awaiting him for bard work, quick work and work that will be unpreglated than has Street Commissioner COLEMAN. Let him forget the byways of Surope for a while and "take his walks C. I. HOOD & CO., Apothecaries, Lowell, Mass. abroad" in the highways of New York.

There are streets without number crying for his notice.

IT LOOKS OMINOUS.

May be it is true that JOHN L. has made a dicker with the authorities in Mississippi by which he is to be let go, but there is naught in the present actions of Gov. Lowny to justify such a belief. His dander seems to be up. He has been travestied from one end of the country to the other in regard to the business, and if he doesn't wreak vengeance on Jonn, why, then the rest will have to take it so much heavier.

The agents of outraged Mississippi law are on our Northern soil, and the sporting fraternity may have to pass a Winter season without some of its brightest lights. Well, it would do them good.

The taking of testimony in the case of Deputy Marshal Nagle shows at its very beginning what a pair of thugs TERRY and his sensational wife were, and confirms the popular conviction that NAGLE did his duty and did it none too soon.

TERRY and SARAH ALTHEA both had murder in their hearts, and Nagle's ounce of prevention was well timed.

The State authorities of Pennsylvania are steadily diminishing the clearing-up force in Johnstown. It has again been reduced onehalf. Yet dead bodies are being found every day in cellars of the town. As for the relief fund, that is locked up beyond reach of the sufferers, and Gov. Beaves to the mastiff who guards it.

It is a sorry business altogether.

S. Davis is a man who believes he possesse the proper enginery to smash Tammany Hall. Well, the organization has endured the storms of a century. FIVE HUNDRED STOP WORK.

THE STRIKING TAILORS ARE CONFIDENT OF VICTORY.

The strike of the Knickerbocker Pants Makers' Union is spreading. Five hundred young men and women, who work fourteen hours a day in the "sweater's "shops on the east side, have stopped work, and more than sixty sweaters' shops are idle.

The strikers held an enthusiastic meeting this morning in the hall at 165 East Broadway, their hall on Hester street having become too small to hold them. Fiery specines were made by the young strikers, and all seemed confident of success.

True Economy

It is true economy to buy Hood's Sareaparilla, for "100 Doses One Dollar" is original with and true only of this popular medicine. If you wish to prove this buy a bottle of Hood's Sarsapsrilla and measure its contents. You will find it to hold 100 teaspoonfuls. Now read the directions and you will find that the average dose for persons of different ages is less than a tempoouful. This is certainly conclusive evidence of the peculiar strength and economy of Hood's Esreaparille.

Burns has done useful work in the Council. Before he was elected he worked in Hoe's London engineering factory for 30 shillings a week. He Couldu't Quit.

[From the Baltimore Free Press.]
He stood on a step-ladder trimming the dead limbs out of a fruit tree, when a man came along with some tools in his hand and stopped and asked : 'How many hours are you putting in for a

day's work?"

"I'm busy from daylight until eight or nine o'cock at night," was the reply.
"Don't you know that nine hours is a day's work?"

the caller, "though to the critical reader it might have seemed a trifle incoherent and that I've heard so, but he won't let me off at Then strike on him!" "I can't very well."
"Pasn't you kick?"

"Pasn't you kick?"
"It wouldn't do any good."
"Some rich old cuss who wants to grind
you into powder, ch?"
"Well he keeps me at work. I believe I

put in thirteen hours every day."

Then you are a fool !"

May be so."

He ought to be talked to." Yes."
Why don't you quit?"

had the forms made up we discovered that it was an acrostic, couveying the intimation that "Clugston is a darned chump." We had had no time to wait, and hadn't anything to take the place of the poem, so I told the foreman to change the order of the verses and mix up the lines so that the first letters wouldn't seell anything, and go to press.

"It spoiled the thing for an acrostic," continued Mr. Clugston, with a heavy sigh, indicative of the burden that oppresses the mind of a man charged with the destinies of a great journal. "but it didn't seem to hurr it much as a poem." "I would, you see, but I am the 'old cuss' you are talking about, and though my man can get his day of nine hours, I have to put in three or four more or things will get behind."
